

Community Investment

At Talisman Energy USA, being a responsible and welcome member of the community is an essential part of our business strategy. We believe that the country and communities where we live and work should benefit from our operations; and that investing in those communities helps to support our business activities and the health and vitality of the community. Our investments are focused on education, environment, empowering communities and employee engagement.

Talisman provides both financial and non-financial contributions to communities and looks to create long-lasting strategic partnerships that focus on measurable results. To maintain consistency across our operations, requests are evaluated based on the following broad criteria:

* The fit with the Company's focus on youth and education
* The ability to address the community's most pressing short- and long-term needs
* The past success of the organization in meeting objectives
* The degree of stakeholder support, including the amount of funding received from other sources
* The initiative demonstrated in collaborating with other organizations
* The financial status and internal controls of the organization
* The ratio of administrative expenses to overall project costs
* The extent that the objectives duplicate those of other organizations currently receiving Company support

Generally excluded from consideration are:

* Religious or political causes
* Sponsorship of individuals or teams
* Private educational institutions
* Fundraising events
* Service clubs and fraternal organizations
* Sporting competitions or tournaments
* Travel funds, field trips, contests, audio/video production
* Organizations funded through the United Way

To apply for funding from Talisman Energy USA, please complete our standard application form on www.talismanusa.com. In addition, you may contact a member of Talisman's local Stakeholder Relations Team who will help guide you through the process.

TALISMAN ENERGY

We are Talisman Energy USA . . .
and we are committed to our communities.
